The TG Ranch Report

'Nooga Kid

It is with deep regret we must report the passing of our pard, our good friend and former DHI TG, Alabama Southpaw, AKA Milt McKnight who joined his maker on January 27th, 2012, just one month past his 71st birthday.

A memorial service will be held at Mowell's Funeral Home in Peachtree City, GA on Saturday Feb 11th at 2:00pm. If you wish to attend, we will make arrangements for a shoot-thru that Saturday.

Annual Shoot

DHI is considering the annual shoot to take place the 2nd weekend of June. Help is needed to pull this off and be a successful match. Please volunteer to participate so we can turn this into one of the premier annual matches in

the southeast. See Big John, Easy Rider, Shifty Eye, 'Nooga Kid or Pearl Grea and let us know what you'll be able to do to help.

Be sure to respond to the DHI Journal survey on next page.

See y'all at the February DHI Match.

Doc Holliday's Journal has been a regular mailed newsletter for quite a number of years. But it is starting to cost a bit to produce and distribute each month.

Since most of the cowboys and cowgirls now have email and access to the internet and the DHI website, we'd like to discuss moving the newsletter to an electronic issue each month.

**Information on Current SASS Rules Pertaining to Overloading the Rifle:
(continued from Dec issue)**

Quotes:

Ammunition required for reloads during the course of any stage **must** be carried on the shooter's person in a bandoleer, cartridge/shotshell belt loop, pouch, holster, or pocket or be safely staged as required by stage instructions. Leather belt slide ammo loops are acceptable. SHB Page 11
The penalty for using "**illegally acquired**" ammunition (i.e. NOT carried to the line/staged by the shooter in an **approved manner**) will be a **PROCEDURAL**. Any targets hit using that ammo will be scored as **MISSES**. **NO adjustments will be made to the stage raw time**. SHB pp.21 & 25 – RO1 p. 21 – RO2 p.6

Quotes:

24. Ammunition dropped by a shooter in the course of reloading any firearm during a stage or "**ejected**" from any firearm is considered "dead" and may not be recovered until the shooter completes the course of fire. The round **must be replaced** from the shooter's person or other area as required by stage description or if the round is not fired it is counted as a missed shot.

SHB p.24 – RO1 p.19

Additional Q&A:

1) If you load too many rounds in your rifle it's a no call but ONLY if you kick it out AFTER you have fired all the rest of the rounds in the rifle?

YES. If a round is 'kicked out'/ejected DURING the rifle shooting string (as opposed to at the END), the 'extra round' is there to replace it.

Rather than rely on a "judgement call" as to the shooter's INTENT (i.e. was the rifle overloaded on purpose or not?), the rules regarding "illegally acquired" ammo can be applied in ALL circumstances where the 'extra' round is used.

NO PENALTY for overloading.

The following existing rules STILL apply:

"P" + miss for use of ANY 'extra' round(s) preloaded in the magazine at the loading table to replace ANY that are ejected during the rifle shooting string.

MSV for leaving rounds in the rifle at the end of the shooting string (shooter has until **FIRING** the next gun to clear it)...or...if the rifle is the last firearm used on the stage; it must be cleared before leaving the shooter's hand(s) at the Unloading Table.

SDQ if an extra round ends up in the chamber (e.g. rifle restaged and the lever closes)

A "Spirit of the Game" penalty would NOT be appropriate as there is no advantage in getting the 15-second penalty (Procedural + Miss) for intentionally 'overloading' in anticipation of ejecting a round during the rifle shooting string.

2) If a shooter fires the extra round.... Shoots the 9 targets, and dumps the extra round into the back of the bay. What is the call? Is it a "P" for firing 10 rounds when the stage called for 9?

YES...according to the WB mandate. The round MAY NOT BE FIRED to clear the rifle.

NOTE: This is NOT the same as loading 2 in a shotgun and firing one (or both) at a target or firing the "extra" round downrange. The shotgun is generally NOT "preloaded" at the loading table.
